

Hercules

IT'S
YOUR
TURN

IT'S YOUR TURN

For 40 years now, we've been putting our passion for music right at the heart of our innovations and the development of our audio solutions. From the first sound card for PC with up to 64 polyphonic channels that we designed, to the first portable mixing console featuring a built-in audio interface, our creativity has allowed Hercules to become a major player in the world of interactive entertainment. Hercules completed a total brand refresh in 2018, offering even more innovative, higher-performance solutions for learning how to DJ — making it fun and easy for everyone to understand and master all of the techniques required for mixing.

In summer 2020, Hercules released a new performance-focused DJ controller built from the ground up to help skilled young DJs move from the bedroom to the barroom and share their mix with an audience for the first time. Late 2021, Hercules launched the very first DJ controller exclusively designed for smartphones to help to mix, create mash-ups and scratch: a new way to DJ for the next generation of music tastemakers.

More driven than ever by our goal of **opening up DJing to everyone**, we've specially designed a range of controllers to help users get started learning how to DJ, and build their skills with total confidence. Our main motivation at Hercules is to empower people to train their ears to understand the rhythm and really become DJs. Our new controllers feature the **BEATMATCH GUIDE** (built-in helpful light guides) that shows users exactly what they need to do, making learning how to mix both easy and fun.

All this is possible thanks to our **full-featured DJ software**, designed for and included with Hercules controllers: **DJUCED®**. DJUCED® features a very intuitive interface with Hercules DJ Academy video tutorials built right in to help users learn the fundamentals of DJing and hone their skills.

We also believe that **creativity is extremely important**, and that it should be easy to select your music according to the mood you want to set for your party. With this in mind, we've developed the **IMA** (Intelligent Music Assistant) to suggest the best upcoming tracks for your mixes. Plus, DJs can get immediate access to millions of tracks with SoundCloud, TIDAL, Beatport LINK, Beatsource LINK and Qobuz and share their mix on music streaming services through Mixcloud.

► DJCONTROL MIX

GRAB IT AND MIX

THE DJ CONTROLLER FOR ANDROID AND IOS SMARTPHONES TO MIX, CREATE MASH-UPS AND SCRATCH.

Easy to use.

Download the free Algoriddim djay app and connect DJControl Mix using Bluetooth.

Mobile for total freedom.

► MONITOR 5

POWER YOUR HOME STUDIO

ACTIVE MONITORING SPEAKERS THAT TAKE YOUR HOME STUDIO TO THE NEXT LEVEL WITH FULL, POWERFUL AUDIO RENDERING.

Building on the experience of the Hercules DJ Monitor 5 speakers — widely acclaimed by the DJing community for their excellent precision and accessibility — Hercules' engineers took extreme care in developing the new generation of Monitor 5 for home DJs, music producers, multimedia creators, PC gamers, and audiophiles.

Monitor 5 can perfectly adapt to any environment and any gear:

- Dual bass ports on the front of each speaker: the speakers can be laid flat, stand up straight, or be stacked one on top of the other.
- Direct access on front: on/off button and volume control knob on each speaker.
- XLR, 1/4"/6.35 mm jack (TRS) and RCA inputs let you connect a computer, sound card, DJ equipment, mixer, etc.
- Customized audio rendering: High Frequency (HF) and Low Frequency (LF) sound adjustment options on the back of each speaker.

- Magnetically shielded to protect against interference from other electronic devices (smartphones, tablets, etc.).

- > 2 x 80 watts RMS, 160 watts of peak power
- > Separate bi-amplification between :
 - the Kevlar-membrane woofer (50 watts RMS)
 - the silk-dome tweeter (30 watts RMS)

► DJMONITOR 42

LISTEN PERFECT, BECOME A DJ

HIGH-PERFORMANCE DJ SPEAKERS FOR A NEAR-STUDIO EXPERIENCE!

Perfect your mixing creations with quality speakers for powerful, clear audio rendering. The Hercules DJMonitor 42 speakers are ideal for setting just the right mood: not too big, and not too **small, they're the perfect fit for any setting and ensure an amazing vibe!**

- High-quality DJ speakers: it's like being in your very own mixing studio.
- Offset bass ports and tweeters for excellent sound spatialization.
- Acoustic guide optimized for high-performance audio rendering.
- Volume, bass and treble control knobs on front of right satellite speaker.
- Headphones output and auxiliary input on front of right satellite speaker.

- > 2 x 20 watts RMS, 80 watts peak power
- > Speaker enclosures crafted of 0.35" / 9 mm thick MDF
- > 4" / 10 cm woofers

► DJMONITOR 32

LISTEN CLEAR, BECOME A DJ

LEISURE SPEAKERS TO START DJING!

Compact, the Hercules DJMonitor 32 speakers more than hold their own against larger speakers in their category — particularly in terms of their quality and output power.

- Active monitoring speakers: perfect for getting started as a casual DJ.
- Offset tweeters for clearer sound reproduction, and a more spatially-distinct stereo effect.
- Acoustic guide optimized for high-performance audio rendering.

- > 2 x 15 watts RMS, 60 watts peak power
- > Speaker enclosures crafted of 0.24" / 6 mm thick MDF
- > 3" / 7.6 cm woofers

► HERCULES HDP DJ60

LISTEN DEEP, BECOME A DJ

HERCULES HDP DJ60 are high quality headphones that offer a great precision and an extreme comfort:

- Perfect for performing and enjoying lifelike, impactful sound — from bass right through to treble frequencies.
- In addition to the headphones' ultra-soft ear pads, their circumaural design (surrounding and enclosing the wearer's ears) ensures excellent noise isolation for monitoring upcoming tracks.
- With their unique design and incredibly soft ear pads, the HDP DJ60 headphones really stand out for the comfort they provide: they can be worn for hours on end with no problem.
- You'll be free to move around thanks to the headphones' 9.8-foot / 3-meter long spiral cable, while the pivoting earpieces give you all the flexibility you need for however you're mixing or performing.

- > Sensitivity: 105 dB +/- 3dB SPL @ 1 Vrms @ 1kHz
- > Frequency response: 15Hz-22kHz
- > Noise reduction: Type isolation passive / Max : -32 dB
- > Connector adapter (1/8" / 3.5 mm stereo mini-jack to 1/4" / 6.35 mm stereo jack)

► HERCULES HDP DJ45

LISTEN EASY, BECOME A DJ

A MUST-HAVE PIECE OF GEAR FOR ANY DJ, EVEN BEGINNERS!

HERCULES HDP DJ45 are the perfect headphones to help you get started as a DJ:

- Plug them into the headphones output on your DJ gear to monitor upcoming tracks. The performance and isolation offer strong audio output level.
- Total comfort: circumaural earpieces encircle your ears without pressing down on them, comfortably shielding you from ambient noise. Long cable on one side only: frees up the DJ during performances.
- Pivot an earpiece to hear what's going on around you. Convenient, their rotating earpieces allow for comfortable one-ear monitoring.
- Design: Trendy, cool look with large ear-cups, black fabric and matte black housing.

- > 95 dB at 1 mW sensitivity
- > 1/8" / 3.5 mm stereo jack + Audible frequency range: 20 Hz – 20 kHz
- > 1/4" / 6.35 mm stereo jack adapter

Hercules ensures a real 360° experience thanks to its full-featured DJUCED® software, included with most of its controllers.

- DJUCED® has been specially designed and developed for **everyone looking to get started as a DJ**, as well as for those who want to **perform live**.
- DJUCED® features a highly **intuitive, simple** and **streamlined interface** that makes it a breeze for all users to get started **quickly** and express their **creativity** without any limits.
- **Enjoy millions of tracks** within DJUCED® from the integrated music streaming services SoundCloud, TIDAL, Beatport LINK, Beatsource LINK (officially supported in globally, with the exception of the US Embargoed countries and the People's Republic of China). Laptop DJs can take 1000 tracks offline in DJUCED®, via Beatport LINK's and Beatsource LINK's proprietary digital locker technology. These tracks can then be played at a public venue without the need for an Internet connection. QOBUZ is also integrated within DJUCED® (available in most of Europe + the USA).
- Finally, record your mix on DJUCED® and **share it easily** on Mixcloud.

HERCULES DJ ACADEMY — Built into DJUCED®.

Check out the helpful video tutorials available and follow the 7-day course with DJ Hapa (the founder of The DJ Coach) directly within DJUCED®: you'll be learning all of the fundamental DJing skills and picking up amazing new techniques in no time. Learn how to count out beats and bars, use the pitch faders for seamless mixing, and so much more. Get to understand all of your controller's different features, and even take advantage of pro tips regarding the best ways to organize your music. Quickly access the video tutorials right within the DJUCED® software itself. Learning to DJ has never been so fun and easy!

Enjoy total freedom in your mixes with the IMA (Intelligent Music Assistant).

- The intuitive features are designed to quickly analyze and suggest the best upcoming tracks for your mix.
- Assistant : suggests tracks from your computer library.
- Energy: helps to host your parties — get people dancing with high-energy tracks, slow things down with lower-energy tracks.

DJUCED® is available in: English, French, German, Spanish, Italian, Dutch, Portuguese, Greek, Polish, Russian, Turkish, Chinese (simplified), Japanese, Arabic

INCLUDED DJ SOFTWARE

ALL NEW DJ SERVICES

Hercules launched in 2021 a services portfolio on their website which aim to enrich, help and simplify the DJ experience. Since the brand was founded in 1982, Hercules has always had the desire to offer solutions to frustrating problems and to make new musical approaches more freely-available for everyone who is passionate about new technology.

The music industry and the rise of live-streaming face two main obstacles nowadays: music copyright and how to stand out. The Hercules teams have spent a lot of time creating new services, starting with royalty-free music and graphic personalization.

EACH FIRST FRIDAY OF THE MONTH:

Download a new collection of **50 tracks** of different genres.
All royalty-free and free-to-use.

EACH NEW SEASON OF THE YEAR:

Download **3 themed packs** of our «DJReady Tracks»,
with more than **40 royalty-free tracks**.

Each title includes:

- Cue Points
- Title
- Key
- MP3 idTags
- BPM
- Genre

► All ready to mix with DJ software DJUCED.

ON TOP OF MUSIC:

Download **collections of visual charts**
from collaborations with international artists, for free.
