Conclusion:

„With its MC 200, Magnat demonstrates just how versatile a compact stereo amplifier can be. The configuration and the associated variety of applications is huge, the unit is simple to operate and the sound is powerful with a high-resolution. The potent all-rounder is therefore highly recommended as a high-quality control center for music, film audio and streaming solutions alike.”

“During our listening test we connect a pair of powerful compact speakers to the MC 200. The Magnat amplifier simply delivers a flawless sound. This is characterized by a wonderfully high-resolution and particularly detailed reproduction. It ensures even the smallest musical subtleties are worked out from the audio signal. And this has a positive effect on all genres of music. Whether it's pop, rock, classical music or heavy metal, the MC 200 always sounds powerful and dynamic. It even fires up low-efficiency compact speakers with a sustained amount of pressure and spirited agility.“
