## "MMS 730 – THE PERFECT ADDITION TO ANY HI-FI SYSTEM"

"We start our listening test with some high-resolution FLAC files from a network drive. In order to test the sound quality of the built-in digital audio converter at the same time, we connect the MMS 730 to high-quality active speakers via the analogue RCA outputs. From this point onwards the Magnat streamer is extremely appealing with a very detailed and finely resolved sound. Thanks to the outstanding Wolfson converter, the MMS 730 sounds particularly multifaceted and detailed."

### Conclusion:

"With its MMS 730 music streamer, Magnat demonstrates just how versatile a modern network player can be. The sound is first class, the configuration is lavish and the variety of applications is enormous. This is how the Magnat MMS 730 has earned the AV-Magazin highlight stamp."

Sound:	<b>Very good</b>
Configuration:	<b>Outstanding</b>
Operation:	<b>Very good</b>
Workmanship:	<b>Very good</b>
Overall:	<b>Very good</b>
Class:	<b>Top class</b>
