

OUTSTANDING

## „A FEAST FOR THE EYES AS WELL“

„ [...] The high-gloss lacquer finish has been applied perfectly, the gaps between the joins are extremely small and the Signature 905 generally exudes an **aura of high quality**.“

„ [...] Regardless of whether it's drums, shakers, tambourines or hand claps, everything sounds extremely natural.“

„ [...] Accurate, but always with an elegant touch, you could say.“

„ As much as we try, we cannot find anything to complain about with the Magnat Signature 905, which is the greatest possible praise for a German. If a pair of the Signature 905 speakers were to cost twice as much, we wouldn't have been surprised by the sound performance produced.“

### Conclusion:

„If, as a hard-nosed test editor with a Germanic mentality, you cannot find anything to be negative about, then that's an accolade in itself. In addition, the Magnat Signature 905 series also won us over with its clear sound, broad playback range and precise spatiality. This compact floorstanding speaker could easily cost twice as much without affecting the price/performance ratio.“

- + CLEAR SOUND
